

Derek Street is the Land Revitalization Coordinator for the Brownfield and Redevelopment Section of EPA Region 4. In this role he researches and finds communities and non-profits in need of planning related technical assistance around brownfield sites. During his time at EPA he has scored 117 brownfield grant proposals and evaluated 21 Revolving Loan Fund supplemental funding requests. Additionally, he is the only Project Officer to have ever written multiple brownfield grant proposals while working in private industry with a 100% success rate across three EPA regions.
