Years of Experience	46 years' Experience in Environmental Engineering and Consulting
Registrations/ Certifications	Professional Engineer in Alabama, Georgia, Mississippi and North Carolina Admitted to the Bar in Alabama, Georgia and North Carolina

Mr. Montgomery is a professional engineer since 1984. He has over 45 years of experience in project and resource management and environmental compliance. At Bhate Environmental Associates he has provided project management and civil engineering input, as well as quality assurance and quality control for projects including environmental assessments, environmental compliance audits, field investigations, waste disposal management, wetlands delineations, remediation system design, air quality monitoring, solid waste evaluations and management plans, and construction. He has developed and directed the development of SAPs, QAPs and SSHPs for projects involving private and DOD facilities throughout the U.S. As the Regulatory Director at Bhate, he has been responsible for client services including Clean Air Act permitting, RCRA waste determination, management and compliance, TSCA compliance, NPDES permitting, Storm water management, Development of SPCC Plans and Best Management Practices Plans, Environmental compliance audits, Environmental indemnification agreements, Long range environmental planning and Brownfield Redevelopment. He has also provided review of project deliverables and documentation prepared by all Bhate employees in every section of the company. Mr. Montgomery has directed and managed studies, reports, designs, drawings, specifications, and bid documents at sites under RCRA and CERCLA nationwide. Louis' varied environmental experience includes work as a regulator with the Mississippi Bureau of Environmental Control, directing technical staff on RI/FS; site investigation plans; data analysis and interpretation; soil, water, groundwater and air sampling; treatment storage and disposal; permitting; and remedial plans and designs.
