**BIO/SUMMARY**

Lee Gregory Stephenson is a Vice President at PM Environmental, a Pinchin Company, a national full service environmental risk management firm. With over 30 years of industry experience, Stephenson has served clients throughout the United States. Stephenson earned his B.S. in Geology from Tennessee Technological University and is a licensed Professional Geologist (P.G.) in Alabama, Kentucky, Louisiana, and Tennessee. Stephenson is near completion of his M.S. in Sustainability from Lipscomb University's Institute of Sustainable Practice with graduation slated for this fall.

Stephenson specializes in Petroleum Hydrocarbon Program Management and Brownfield Redevelopment working for multiple state and private party clients. He has managed portfolios of projects during his tenure including environmental due diligence, corrective action design, remediation, mergers and acquisitions, divestitures, new to industry site development, wetland banking, EPA brownfield assessment grants, facility compliance audits, environmental compliance and risk initiatives.

He has successfully achieved regulatory closure of hundreds of sites in multiple state and federal programs throughout the Southeastern United States.
