

ABOUT GEOSYNTEC

Geosyntec is a consulting and engineering firm that works with private and public sector clients to address new ventures and complex problems involving our environment, natural resources, and civil infrastructure. Since our founding in 1983, Geosyntec has completed nearly 10,000 projects worldwide with an outstanding safety record. Our experience delivers on the potential of innovative applications of proven and emerging scientific and engineering technologies.

We deliver solutions through Geosyntec and our seamlessly integrated divisions (SiREM, Savron, and Geosyntec Europe) with a combined staff exceeding 1,200 engineers, scientists, and related technical and project support personnel. We serve our clients from more than 80 offices in the United States, Canada, the United Kingdom, Ireland, and Australia.
