

ABOUT TTL

Throughout our history, TTL has operated with one guiding principle – help our clients be successful and we will be successful. For more than 50 years, we have continually provided innovative and cost-effective solutions to the concerns and challenges faced by our clients on projects nationwide. TTL has a strong history of innovation and technological engineering accomplishments. With office locations in Tennessee, Alabama, Georgia and Texas, our staff capabilities span nationwide.

Our company-wide capabilities include:

- civil design services
- environmental consulting/natural resources
- geotechnical engineering
- construction materials testing/special inspections
- analytical laboratory services

We currently serve the following markets: Commercial, Education, Energy, Healthcare, Hospitality, Industrial, Residential, Transportation and Water/Wastewater.

TTL's laboratories maintain certifications from American Association of State Highway and Transportation Officials (AASHTO), AASHTO Materials Reference Laboratory (AMRL), Cement and Concrete Reference Laboratory (CCRL), state Departments of Transportation (DOT), and is validated by the US Army Corps of Engineers (USACE). By remaining alert to new technologies and attuned to changing regulatory trends, our staff demonstrates their commitment to providing innovative and value-based solutions for our clients.
